Senator Stone said he would like to have the letter referred to the conerees on the immigration bill, but Senator Lodge pointed out that House opposition had killed the amendment to admit Belgian agricultural immigrants,

NEW YORK, Jan. 11.-Having be come irregular and slightly reaction ary at the close of the first hour, the stock market today resumed its upward trend shortly before noon, and gains averaging more than a full point were registered by the more active issues. As has been the case for several days the industrials were the strength of the market. The railroads, however, followed the specialties upward. The Safest Investments Are those that do not fluctuate during dis-turbed conditions of the money or stock mak-kets. First deed of trust notes (first mak-gages), well secured on real estate in the District of Columbia, constitute "gilt-edge" investments. They do not depend upon the financial responsibility of individuals or cor-porations for their stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Concerning Loans and Investments."

On the other hand, they are used to represent a quality standard for "Orphan" brands that can only claim to be "Just as Good."

THE strongest indorsement a product could have is a trail of "Just as Goods;" but the consumers should be protected against these unknown brands.
